

Storey County Residents,

Throughout the COVID-19 pandemic, there have been concerns about the accuracy of Storey County's vaccination rate.

We are reaching out to you, our residents, to help us have a clearer understanding and quantify the vaccination rates in the county by completing the following three-question survey to include you and each member of your household. No personal information is requested.

This survey is intended for anyone who resides in Storey County 12 years of age and older.

For questions contact:
