

★ ★ ★ VOTING INSTRUCTIONS ★ ★ ★

1 Insert your activation card, arrow side up, in the card reader at the base of the tablet to activate your ballot. **No voter information or ballot choices are stored on the activation card or the unit itself.**

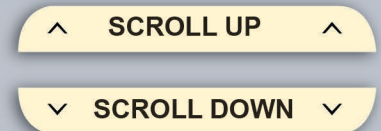

2 Change the font size and screen contrast as needed.

3 Tap your choice to vote. Tap the **Next →** button to advance to the next contest/question

4 If there are more candidates than will fit on the screen, scroll through the candidate names by touching the “scroll up” or “scroll down” buttons

5 Once you are satisfied with your selections, tap “Print Ballot”.
Warning: Allow the ballot to fully print on both sides before taking it out of the printer.

6 Place your printed ballot in the privacy sleeve, bring it to the tabulator and insert into the ballot slot. After a successfully cast message, give the card and sleeve back to an Election Officer.
